SUMMARY

Business Analyst with **3+ years of experience** across **web and mobile application** projects, delivering clear requirements, high-quality releases, and measurable business outcomes through structured analysis and stakeholder collaboration.

I specialize in **requirement elicitation**, **functional flows**, **wireframes**, and **UAT execution**. My data analysis skills in Power BI, SQL, and Excel complement core Business Analyst work by turning raw data into actionable insights.

SKILLS

- **Business Analysis & Functional Skills**
  - Requirement Elicitation & Analysis
  - BRD / FSD / User Stories & Acceptance Criteria
  - User Acceptance Testing (UAT) Planning & Execution
  - Process Mapping & Optimisation (As-Is/To-Be workflows)
  - Stakeholder Management & Communication

- **Data Analytics & Reporting**
  - SQL (Joins, CTEs, Window Functions)
  - Power BI Dashboard Development
  - Advanced Excel (Pivot Tables, Lookups, Macros)
  - KPI Design & Reporting Automation

- **Project & Delivery Management**
  - Project Delivery Support
  - Risk Assessment & Mitigation Planning
  - Cross-functional Team Collaboration
  - Client Relationship & Escalation Handling

PROFESSIONAL EXPERIENCE

Tech Exactly **Business Analyst | March 2026 – Present**

- Conducting structured **requirement elicitation sessions** with prospects, converting ambiguous business goals into precise, delivery-ready documentation.
- Producing **UML diagrams, wireframes, user stories, product roadmaps and SRS** with high turnaround accuracy — ensuring zero misalignment between client expectations and dev output.
- Functioning as **Product Owner** — managing backlog, facilitating scrum ceremonies, and keeping every sprint tightly aligned to agreed client goals.
- Owning end-to-end **UAT execution** — writing test scenarios, validating acceptance criteria, tracking defects, and driving stakeholder sign-off to clean releases.
- Preparing and presenting **detailed business proposals** to prospects, combining sharp analytical thinking with clear communication to build client confidence and close alignment fast.

Sai Paramount IT Solutions **Business Analyst | July 2024 – March 2026**

- Work closely with clients and internal stakeholders on **web and mobile application projects**, performing requirement elicitation and functional analysis.
- Prepare **user stories, BRD/FSD documents, UML diagrams, functional flows, and wireframes** to support development and delivery teams.
- Lead **User Acceptance Testing (UAT)** activities, including test scenario preparation, acceptance criteria validation, and defect coordination.
- Contributed to **process improvements resulting in approximately 30% improvement in operational efficiency** through better requirement clarity and delivery coordination.

GEEMSCO Consultancy Services PVT. LTD. **Business Analyst | March 2023 - July 2024**

- Supported requirement gathering, documentation, and stakeholder coordination across multiple IT initiatives.
- Performed data analysis using SQL and Excel to support reporting and business decision-making.
- Assisted with UAT planning, defect tracking, and release support, contributing to smoother go-lives.

PROJECTS

1. EV Market Analysis (Link: **Power BI Dashboard**) **(August – 2025)**

- **Market Growth Analysis:** Analysed the Indian EV market (2022–2024) to identify growth trends, brand performance, and state-level adoption insights across two-wheeler and four-wheeler segments.
- **Regional Performance Insights:** Focused on high-penetration and underperforming regions to understand geographical adoption patterns and market opportunities.
- **Brand Benchmarking:** Conducted quarterly brand growth analysis and YoY performance comparisons to identify market leaders and emerging players.
- **Seasonal Trend Analysis:** Examined temporal patterns and seasonal trends to understand optimal timing strategies for market entry and product launches.
- **Strategic Roadmap:** Delivered comprehensive insights with strategic recommendations for market stakeholders to prioritise product strategy, investment zones, and infrastructure partnerships.

2. Google Trend Analysis (Link: **GitHub Repository**) **(June – 2025)**

- **Data Analysis:** Conducted in-depth analysis of sales and manufacturing data to uncover critical business insights.
- **Operational Efficiency:** Identified opportunities for cost reduction and optimised resource allocation to enhance production efficiency.
- **Market Insights:** Analysed market presence and sales trends, providing strategic recommendations for improved market penetration and sales performance.
- **Customer Insights:** Delivered detailed reports on customer discount patterns and behaviours, aiding in the development of targeted promotions and loyalty programs.
- **Product Performance:** Evaluated product demand and manufacturing costs, offering insights to refine product lines and meet market demands effectively.

3. Customer Retention and Call Centre Optimisation Analysis (Link: **GitHub Repository**) **(April – 2024)**

- Conducted churn analysis using Power BI and Excel, achieving a 26.54% churn reduction through customer segmentation and proactive engagement strategies.
- Identified performance gaps in call centre operations, leading to improved response time and resolution rate KPIs.
- Provided data-driven recommendations for personalised customer offers based on demographic and usage patterns.
- Enabled infrastructure planning by assessing the internet service reliability impact on customer satisfaction and retention.

EDUCATION and CERTIFICATIONS

- **+3 BSc Graduation** ***North Odisha University, Barbil — 2022***

Updated on: **30 March 2026**

CERTIFICATIONS

- Business Analysis by **Microsoft**
- Data Analytics Professional Certificate by **Google**
